

Amendments to the Specification:

Please replace the paragraph on page 9, lines 17-19, with the following replacement paragraph:

The dial plate 16 includes a first window 16e and a second window 16f as ~~widow~~ window sections formed with a plurality of, for example, two openings for exposing the liquid crystal displaying plate 11.

Please replace the paragraph on page 13, lines 8-10, with the following replacement paragraph:

Furthermore, one control driver can control the liquid crystal displaying sections 12b, 12c, and hence the manufacturing cost can be reduced if only the one liquid crystal displaying plate 11 is employed[[],].

Please replace the paragraph on page 21, lines 22-25, with the following replacement paragraph:

As illustrated in FIG. 10, in the present embodiment, an overlapping edge correspondence section 123a overlapping the overlapping edge section 111b of the liquid crystal holding member ~~23~~ 123 is constructed with optically transparent members 125a, 125b.

Please replace the paragraph bridging pages 21 and 22 (page 21, line 26 to page 22, line 3), with the following replacement paragraph:

The optically transparent member 123a comprises the frame optically transparent section 124b provided at a position corresponding to the overlapping edge section 111b of the frame ~~24~~ 124, and the packing optically transparent section 125a provided at a position corresponding to the overlapping edge section 111b of the packing ~~25~~ 125.
